the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion. The number of people aged 65 and over is expected to increase from 200 million to 400 million. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion.

Foreign-made mechanical loaders have been received in Poland but are not as yet used at the Wieczorek mine. However, they have been demonstrated and results showed that the mechanical loader can load 12 cars in 5 minutes while it takes two miners one day to load the same number of cars. At present, the Wieczorek repair shops are trying to adapt the loaders to conditions at the mine. Bitner, one of the workers, remarked that the loaders are not complicated in construction and could be built in Poland's factories.

The Wleczerek mine also uses a winch for drawing timber. A conveyor built on the principle of the winch now delivers coal from the Pulawski shaft to the electric power plant.
